

Product data sheet

7920 E-200-2

EAN-No. 4000896219247

Torque range min-max: 1 – 200 Nm

- **Torque sensor** for calibration unit 7920E
- 1 – 200 Nm · accuracy class 0.50 %

High-quality torque sensors:

- Replaceable torque sensors in 2 accuracy classes define the torque range:
 - 0.25% – for indicating and automatic release torque wrenches with an accuracy of $\pm 1\%$ (e.g. for product groups 7000sTAC · 7000eTAC)
 - 0.50% – for indicating and automatic release torque wrenches with an accuracy of $\pm 2\%$ (e.g. for product groups 6000TC)
- Quick-change system for nominal size sockets **6.5** **1/4** **10** **3/8** **12** **1/2** **20** **3/4** **25** **1"**
- Automatic sensor recognition
- Made in Germany
